RHUSTOM DE GUZMAN

Full Stack Developer | Process Automation and API Integration
Taytay, Rizal | 09465855149 | rhustom09@gmail.com
Portfolio: https://rhustomdeguzman.github.io/aboutme/

PROFESSIONAL SUMMARY

System Developer with 4 years of experience in process improvement, workflow automation, and business application development. Skilled in multiple programming languages and API integration, with the ability to adapt to new technologies and use AI tools to accelerate development.

PROFESSIONAL EXPERIENCE

Cathay Land Inc.
Jr. Programmer to Jr. Programmer Specialist II | 2022 - Present

- Transformed the Online Request for Payment process from Google Forms into a PHP Laravel web application and integrated it with SAP Business One via API to automate Accounts Payable processing and speed up payment workflows.
- Built Jodoo applications with API integrations to automate business processes and eliminate manual intervention.
- Created a Single Sign-On (SSO) page using Vue JS and an ASP.NET API to centralize access to all existing websites.
- Developed a Petty Cash and Cash Advance System using React JS and TypeScript, integrated with the Online Request for Payment system.
- Led ongoing web application development and maintained Laravel systems, including performance optimization, reliability improvements, and feature enhancements.
- Collaborated with cross-functional teams to gather requirements and deliver scalable solutions aligned with business needs.

FREELANCE & PERSONAL PROJECTS | 2024 - Present

- Developed a Library Management System to record student time logs through RFID scanning or manual student ID entry.
- Developed a canteen Point of Sale (POS) system with grocery inventory management for a friend's business.
- Built personal automation projects using n8n and developed a retrieval-augmented generation (RAG) system using JavaScript, LangChain, and an LLM, with OCR capabilities for extracting text from documents.

TECHNICAL SKILLS

Automation and process improvement: Business workflow automation, business process improvement, payment process automation, data synchronization.
API development and integration: SAP Business One API and DI API, Jodoo integrations, SSO API, PHP Laravel, ASP.NET.
Frontend development: React JS, Vue JS, TypeScript, JavaScript, HTML, CSS, Tailwind, jQuery, AJAX.
Backend development: PHP (Laravel 5.5), ASP.NET, VB.NET, C#.
Databases: SQL Server, T-SQL, stored procedures.
Platforms, tools and AI: Jodoo, Gitea, Apache, cPanel, FineReport, Notion, Codex, OpenAI, Ollama.
Additional knowledge: Basic computer hardware knowledge.

ADDITIONAL TOOL EXPERIENCE

n8n & zapier: Less than 1 year of experience.
GoHighLevel (GHL): Exploratory exposure through a 14-day trial.

EDUCATION

Bachelor of Science in Computer Engineering
Rizal Technological University | 2022
